Loved Her Liquor; Woman Tells Court; Five Quarts Daily

DETROIT, Mich.—Mrs. Edna Marion forty-five years old, well tailored and hatted, told a magistrate in Windsor that she "just loved liquor."

Mrs. Marion admitted that she was in the habit of consuming on an average of five bottles a day. When she did not drink it herself she had a party and her friends did, she told the court.

Mrs. Marion has for twenty years been a resident of Petite Cote. The other day a consignment of twenty cases of liquor arrived at the express office in Windsor for Mrs. Marion, police said. Mrs. Marion explained that she has had forty cases of liquor in the last three months and has none of it left.

"Have you sold any liquor?" she was asked.

"Certainly not," she replied. "I just have to have whiskey to drink."

"Only two empty bottles were found on the premises. What did you do with the other 478 bottles?" the court asked.

Mrs. Marion said she always dumped them in the river.

The license inspector also found nine empty barrels in the basement of the Marion home. Mrs. Marion lost the twenty cases of liquor.

PONZI IS TOOL OF HIGHER-UPS, OFFICERS THINK

Charles Ponzi, photographed a few days ago in Boston.

BOSTON, Mass., Aug. 12.—A searching investigation extending into every quarter of the world, was being made today into the affairs of Charles Ponzi, "little Napoleon of finance," and an international group of financial men. Officials declared these financiers are involved in launching what they term "the most gigantic enterprise of the age," and into which "the common people were to be let in on the ground floor."

Informed that the debonaire little Italian and his 50 per cent in 45 days project was only an advertising cat-paw in a plan to establish a chain of banks, a vast export business, steamship lines to the chief ports in the world and to absorb various industrial enterprises, official investigators were bending every energy to lift the veil of mystery surrounding the promoters, the underlying object of the undertaking, the real source of their financial backing and to determine whether the scheme can stand the legal acid test.

With Ponzi's secret money making scheme in international reply coupons halted, with the bank in which he deposited his funds closed by state order and with bankruptcy proceedings facing him, the investigation centered on the men "higher up."

Absolutely calm but with his usual snap and pep and famous smile fading, Ponzi expressed the fear that he would be arrested on some technical violation of law, and be deported by the same method. Ponzi's attorneys were concerned too for they visited the courts and requested that they be notified if any person applies for a warrant for Ponzi. They said they would apply in federal court for a petition for a receiver for Ponzi's securities company.

Ponzi remained at his magnificent home in Lexington, with armed guards watching its approaches. He carried a revolver. Ponzi was still hopeful that the tangled skein would be successfully unravelled. However, he declared that the strain of being compelled by public authorities to meet obligations before they come due, was telling on him.

Ponzi claimed a "bank oligarchy" was against him. He told reporters this forenoon, that he would face the music and had no intention of fleeing the country. He declared that he was going to prove that he was "on the level" and added that the past had nothing to do with the present. He seemed fearful that some attempt was to be made on his life, keeping his pistol handy at all times. Ponzi was informed that a fast automobile containing two men was loitering about the entrance to his grounds, apparently intent on following him if he left the house. "They are probably thugs," said Ponzi tersely.

Park Committee To Meet The Fair Board

The last regular meeting of the directors of the agricultural society, before the county fair, will be held Saturday. The swimming pool and park committee is to appear before the fair board to ask permission for the use of a part of the fair grounds for park purposes.

The extra levy of three mills for three years for school purposes carried at Tuesday's election in the Coshocton union school district by a vote of 778 to 387.

The proposition for an additional levy for school purposes carried in sixteen rural and village school districts outside of the City of Coshocton and was defeated in seven districts. The vote in the Monroe township school district was a tie, 24 to 24, and will probably be declared lost, a majority being necessary to decide the question.

The vote in each district, as compiled at the county board of elections office, is as follows:

BLISSFIELD MEN FINED FOR FIRE WATER ESCAPADE

George Holder, who resides at Pin Feather Ridge near Blissfield, was brot to Coshocton in an automobile Thursday by Sheriff Cullison, Deputy Sheriff Darr and Prosecutor Leech and taken before Justice E. G. Abbott on a charge of furnishing intoxicating liquor to Philander Whiteus, who resides in Blissfield. Whiteus, who is reported to have been drunk Wednesday, was also brot to Coshocton by the officers, it being alleged that he said he procured the liquor from Holder.

Both men pleaded guilty. Holder's fine of \$100 was remitted by Justice Abbott, providing he show better behavior in the future. Whiteus was fined \$5 and costs for being drunk, which he paid.

Whiteus' wife filed the affidavit against Holder.

O'NEIL LEADS BY NARROW MARGIN

COLUMBUS, Aug. 12.—An eyelash finish with W. A. Julian, Cincinnati, manufacturer and Judge A. F. O'Neil, of Akron, world war veteran, running neck and neck is indicated by the latest returns available here. O'Neil is leading Julian by 532 votes with returns tabulated from 5,300 precincts out of 6,000, the totals reported being O'Neil 58,251; Julian 57,719.

All indications point to such a close finish that the official count will alone decide who is to oppose ex-Governor Frank B. Willis, in November.

SUFFRAGE VOTE IN TENNESSEE ASSEMBLY IS SET FOR FRIDAY

Flashes Thru The Black War Clouds

LONDON.—The British Federation of Coal Miners today voted approval of a general strike in the United Kingdom if the "action committee considers such a drastic step necessary to prevent a new war."

On account of the critical new European situation Premier Lloyd George has cancelled plans for his vacation in Switzerland.

LONDON.—The critical European situation resulting from the decision of France to recognize the anti-Bolshevik de facto government of General Wrangel in southern Russia, will be discussed by Premier Lloyd George and Premier Millerand at Boulogne on Sunday, it was learned this afternoon.

The conference was hastily arranged after France had formally notified Great Britain of her decision not only to recognize the south Russian de facto governments but to give military aid to General Wrangel as well.

LONDON.—Official announcement that the Russians have cut the Warsaw-Danzig railway was contained in the soviet government communique received in London this afternoon.

LONDON.—Earl Curzon, the foreign secretary, received a note from France this afternoon relative to the French policy on Russia. He immediately referred it to Premier Lloyd George.

PARIS.—The foreign office was officially advised that the Russian soviet government has concluded peace with Lettonia, making an advance of 4,000,000 gold roubles on the restitution Russia is to pay. The conditions absolve Lettonia from any share in the Russian debt.

WASHINGTON.—Recognition of General Wrangel, anti-Bolshevik leader by France does not in any way conflict with the views of this government, it was stated at the state department today.

While the matter of recognition of General Wrangel has not been announced by this nation, it is strongly indicated that if the anti-Bolshevik shows strength and gains the support of the Russian people, this government may consider recognizing him.

LONDON.—The Russians and Finns have agreed upon armistice conditions according to a dispatch from Dorpat this afternoon.

MACHINE CRANK INJURES WORKMAN

George Miller, Coshocton, was rushed to the City hospital Wednesday afternoon following an accident at the Coshocton Straw Paper Company in which he received a long, deep cut in his left ear and neck when a crank of a machine he was operating struck him. FRANCE SPLITS WITH ENGLAND ON RUSS SCRAP

Will Recognize Wrangel's
Anti-Bolshevik De Facto

PLANS MILITARY AID

United States Stands With
England In Polish and
Russian Policy

PARIS, Aug. 12.—A communication from the British government regarding France's decision to recognize the de facto government of General Wrangel in southern Russia was received at the French foreign office today.

It was stated officially that the divergence of views between France and Great Britain on Russia are being examined in the most amicable manner by Great Britain.

Further diplomatic conversations between London and Paris will take place.

It was stated at the foreign office that the difference of views will not hinder the French foreign office in extending aid to General Wrangel's Bolshevik army.

PARIS, Aug. 12.—France has definitely broken with Great Britain on Russian policy according to all indications today.

The French press generally regards the decision of the French government to recognize the anti-Bolshevik de facto government of General Wrangel in southern Russia as a direct result of Premier Lloyd George's speech to the house of commons at London on Tuesday.

French officials who have studied the American note on Russo-Polish affairs believe that the United States will support the French decision to give military aid to General Wrangel's anti-Bolshevik army.

"This is the first time since peace was declared that France has separated from England on a question of important international doctrine," the Echo de Paris pointed out.

Premier Lloyd George is accused by the Matin of advising Poland to accept the peace conditions of the Moscow Soviet government "without consulting France and contrary to the agreement reached by the Anglo-French premiers at Hythe."

According to the Matin, France is breaking off relations of every kind with the Soviet government and its envoys in Great Britain.

"Premier Lloyd George speaks of his anxiety over the Russo-Polish situation but it is no keener than the anxiety of France," said Le Figaro. "France has seen her strongest interests misrepresented."

According to ex-Premier Clemenceau's newspaper Homme Libre, General Wrangel will send troops to assist the Poles in Galicia. The following Bucharest telegram was printed by Homme Libre.

"Rumania is understood to have consented to allow General Wrangel to send an army corps thru Bessarabia to Galicia, as a result of allied insistence."

"Will Soviet Russia declare war on France?" was the glaring headline.

THE early French and English trappers and explorers travelled from the Atlantic Ocean to the Mississippi without crossing a single running stream. To do this they used the lakes and the twelve Portages between them.

Light, smoothly gliding birch bark canoes furnished a comfortable mode of travel upon the lakes. But, on the Portages the travellers had to face an ordeal that tried and tested the mettle and muscle of the stoutest.

Over those twelve Portages have toiled such men as La Salle, with his band of white men, the first to see the Ohio, and first to explore the Mississippi; Celoron, the courier of the French King, carrying his leaden plates to annex the new country to France; Marquette, in his journey to the Mississippi, and the zealous missionaries in their quest of new people to win for the faith.

"These places are called Portages," wrote an old Jesuit three centuries ago, "inasmuch as one is compelled to transport on his shoulders all the baggage and even the boat in order to find some other river, or make one's way around these rapids and torrents; and it is often necessary to go for several leagues loaded down like pack-mules, climbing mountains and descending valleys, amid a thousand difficulties and a thousand fears, and among rocks or amid thickets known only to unclean animals."

THE modern tourist journeys from coast to coast on cushions of air. The properly designed pneumatic tire gives to present day travellers the same easy-riding-comfort on land that the canoe gave our ancestors on the water. But very often the tire designer—in his zeal to produce a sturdy tire—gains strength at the expense of riding-comfort. Rough riding tires take the joy out of motoring.

PORTAGE TIRES are big comfortable tires, scientifically designed to absorb jolts and jars and to keep shocks from reaching the passengers. At the same time PORTAGE TIRES easily withstand the terrific impacts that every tire receives in the day's journey over uneven pavements.

Perfectly balanced construction—is the reason: that is no great secret—but it is a most difficult perfection to achieve.

A Practical Application

WE are constantly being asked the question, "How can taxation be made to square with justice?" When people's minds have been distorted and put all out of shape by an exceedingly stupid and foolish method of raising public revenue, it is at times difficult for them to understand even the simplest kind of a proposition.

There is comfort in this, however, that the correct way is always the easiest way. The only difficulty is in the comprehension of sound principles. Taxation is payment for social services and advantages. To put it plainly, it is the call of the community to the citizen to pay for what the community has done for him. It is ridiculous to ask a citizen to pay for what he has done for himself, and call it taxation.

There are two ways of securing just taxation. One is to take the assessed value of the land, which is that part of economic rent uncollected by taxation capitalized, and to this add the amount now collected. If the assessed value of land is not the true value, naturally there will be difficulty in raising the needed amount. To apply this principle in a simple way and thereby avoid errors in assessments the following plan may be used.

Take for instance the city of Holyoke, Mass. It has a population of some 60,000—12,000 families of five. The area is 14,690 acres. With lots 25x100, and making due allowance for streets there would be 176,280. The city's budget in 1918 amounted to \$1,750,000. An average tax of \$10 a lot would yield \$1,762,800. This average tax can be graded between the dearest lot in town, worth some \$50,000 and the cheapest lot in town, worth \$50. If a 5 per cent tax were levied upon land values the dear lot would pay \$2,500 and the cheap lot \$2.50. It is quite evident that the owner of the dearest lot in town gets the maximum of service and advantage from the community, and the poor working man who has a lot worth \$50 will get probably little but inconvenience, and he ought not to be charged much for that. The kind of building each puts up on his lot, is determined by the individual, and not by the community, and it is no concern of the community. The concern of the community is to collect from the individual the full value of the service and advantage the community renders to the individual.

Our present system of taxation amounts to a fine and a penalty for those who will use their opportunity, and a premium, or payment in the form of increase in value, for those who do not; and we give encouragement to the vacant lot industry. Holyoke, for instance, can give to every family a very liberal estate of five lots, and then only need for the use of the entire community 60,000 lots, leaving idle and vacant 116,280. The cost of government in Holyoke is \$150 per family, when it should be \$10 per lot on the average. There is a premium on idleness which is the average yearly increase of land values amounting to about \$1,500,000 and a fine on industry of over \$800,000.—The Public.

New York Day-By-Day

By O. O. McIntyre

NEW YORK, Aug. 12.—The busiest corner in the world—Fifth Avenue and Forty Second street—reaches its full tide of confusion and bustle at five o'clock in the evening. Northward rush the home goers and eastward the commuters. Twelve star-wart traffic rods control the destiny of the thousands.

It is a pushing jostling throng that one does not encounter in the garden packed subway. Thots of coming dinner and the evening shoppers and puppy seem to put the ambulant horde at peace. On the Liberty steps are the hawkers. Of late do Joe with his half-opened grip of antiques and leaves. One Armed Nick and his perennial basket of sleeping puppies—\$6 each.

The toy balloon man who makes few sales but always smiles, revealing one upper tooth. Prince and pauper, patrician and sneak thief jostle each other in easy comradeship. Startled folk from the hinterland pause with frightened looks but are carried off in the wave of traffic and soon they are smiling and enjoying the experience.

Pretty school girls from the nearby shops, with fresh white and faces chatter about the coming gayeties of the evening. Lured old women in aprons and shawls are loaded with kindling on their way to the First Side tenements. The noise is the squeakling of the Old World.

The Russian patriarch with a long white beard, who has been digging in the dusty tons of the library. The painted olive-skinned girl from the far away Pacific looking for conquests in the New World. The aristocratic Turkish rug dealer who owns a mansion on Riverside Drive. The Italian opera singer with a feather in his

Alpine hat. Chic French maids who wait on tables in the table d'hotes in the forties.

Above it all is the drone of balded dash, the hiss of tires on asphalt and the sickly fumes of gasoline. In an hour the noise and confusion disappear like magic. Save for butlers in the mansions along Millionaire's Row locking the iron gates and the occasional clippity club of a night cab house, Fifth Avenue is lifeless.

At Wolpin's where the actors and actresses go for tiffin and chow, two chorus girls sat at a table discussing literature.

"Ever lamped any stuff by Rex Beach?" asked one.

"By Rex Beach?" said the other. "I thought that was the name of a seashore resort."

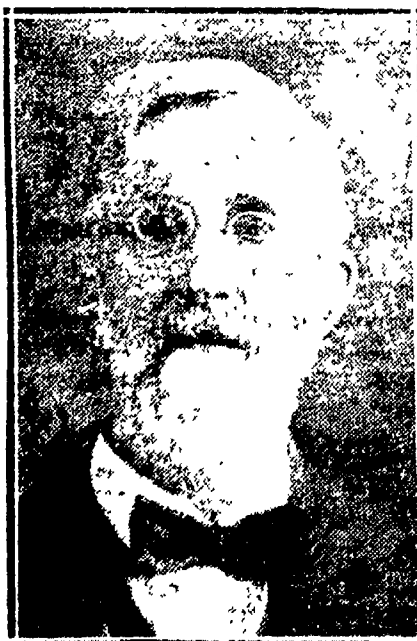

Speaking of beaches, consider for a moment the high cost of having one's miserable life saved this summer. At many of the beaches it costs about three times as much to protect a bath as from drowning at it did before the war. No longer is the college under graduate content to rescue bathers for the sheer joy of life on the beach. And to acquire a tan.

Before the war a competent life guard made \$12 a week and had the privilege of lying around in the sun all day thinking up snappy remarks to pull on the boarding house vendors at night. Now they are getting from \$40 to \$60 a week and work eight

WALT MASON HIRED HELP

We used to have a stately butler, the most impressive gent alive, a major-domo and a suttler, and proud domestics four or five. Before the war they did their duties as good retainers ought to do, they seemed to us a bunch of beauties who well deserved the wage they drew. But since the times became unsettled they tried to travel on their gall, and they became so highly mettled we had to can them, one at a time. And now my wife does all the cooking, rejoicing that the gang is gone, and I, beshrewing and gadzooking, keep up the fires and mow the lawn. About my household tasks I scuttle, so gay I carol songs aloud, and I'm convinced that I can butte as well as any hiring hand. My wife is singing "Annie Rooney" and other good old songs of yore, before I sing writers all grew looney, as she mops up the kitchen floor. Without hired help my heart is bubbling with harmless mirth, that makes a hit; my days no more are filled with troubling fear some haughty maid will quit. The pies are burned, the bread is soggy, the meat comes smoking from the stove, but I'm so glad I'm feeling groggy, because we fired that grouchy drove. I do not care two jots or tittles what people say of us in town; far better live on ruined vittles than wilt beneath a servant's frown.

Florida Man Makes Perpetual Calendar

Pentland has had his device protected by patents in America and

foreign countries and he offers a substantial reward to anyone who can find a flaw in its plan. The calendar consists of a circular revolving disk on which are arranged the centuries in numerical order, and which when brot in contact with the years (arranged in like order on the outer plate), will instantly bring to view any calendar desired from the beginning of the Christian era to the present time and beyond to infinity.

The calendar is simple in construction and apparently practical in use. One feature of the calendar, Mr Pentland says, is that for 15 per cent of all dates required no move is necessary.

A WONDERFUL HELP

At Two Stages of Life Lydia E. Pinkham's Vegetable Compound Made Mrs. Fairburn Strong And Well.

Chattanooga, Tenn.—"I used Lydia E. Pinkham's Vegetable Compound before my baby came when I could no longer keep up. It strengthened my back and relieved me of the dropsical effect which so often develops at such times. It helped me wonderfully. That was my first experience with the Vegetable Compound. Years afterwards I took it during the Change of Life and got along so well I scarcely ever had to lie down during the day and seldom had dizzy fainting spells. I am now well and strong, can do all my housework with perfect ease and it is a comfort to me to be able to say to other suffering women, 'Take Lydia E. Pinkham's medicine and be strong.' I will be glad to have you use my name if it will be the means of helping any one."

—Mrs. R. A. FAIRBURN, 606 Orchard Knob Avenue, Chattanooga, Tenn.

For forty years this famous root and herb medicine has been pre-eminent successful in controlling the diseases of women. Merit alone could have stood this test of time.

ALLIES SEEK PEACE NOT WAR WITH THE SOVIET GOVERNMENT

LONDON, Aug. 11.—Premier Lloyd George told the house of commons this evening that he is still hopeful that peace will be made by the Soviet government of Russia. The premier made it plain that Great Britain and France do not contemplate declarations of war against Russia.

The next action of the allied nations he said, will be economic pressure to compel the Russian Soviet government to release its stranglehold on Poland. This pressure will come either from naval action or from combined international action, the premier declared.

The allies are justified in demanding guarantees that Poland will not be attacked again and that Poland will not be the victim of unjustified reprisals that may threaten her national existence, Premier Lloyd George added.

"Even in the event of the failure of the armistice negotiations between the Poles and Russians at Minsk no allied troops will be sent to Poland," said the premier. It is unnecessary to send any allied troops if the Polish resources are organized properly.

"The Poles have been warned that they must accept allied advice and direction and we have lectured them for refusing it in the past."

The premier here referred to the report of the Anglo-French military missions at Warsaw that the Polish high command was refusing to accept any suggestions from allied military experts.

An independent Poland is necessary and the partition of the country will be a crime and a peril to the rest of Europe," said the premier.

"The delays caused by the Soviet government at Moscow in getting armistice and peace negotiations going are suspicious."

"The allies, (England and France,) at Lympe, (where Sunday's conference was held,) agreed that in the event Poland accepts the Russian terms, they (the allies,) shall not intervene. The allies want to do nothing that would upset the arrangement."

FRANCE DECIDES TO RECOGNIZE WRANGEL

PARIS, Aug. 11.—France has decided to recognize the administration set up in southern Russia by General Wrangel, leader of the anti-Bolshevik army on the Crimean front, as the de facto government of Russia, it was stated at the foreign office today. This decision, it was said, resulted from the military successes of General Wrangel's army and also from the Democratic policy announced by General Wrangel.

Uncle Sam Will Not Dicker With Soviets Is Policy Of Admr.

WASHINGTON, August 11.—With the stand of the United States in the Polish situation clearly set forth in the note to Count Camillo Romano Ravezzana, the Italian ambassador, officials here today were awaiting word from Europe as to the effect of the note.

Some changes in policy by the allies were hoped for by officials here, particularly in those policies which would tend to show a disposition to make concessions to Soviet Russia.

President Wilson and Secretary of State Colby have left no doubt that this government does not intend to recognize or give any concessions to Soviet Russia altho they state that "the United States maintains unpaired its faith in the Russian people, in their high character and their future."

That the United States will not participate in any peace dickerings with Soviet Russia, was made plain to the Italian ambassador, officials pointed out.

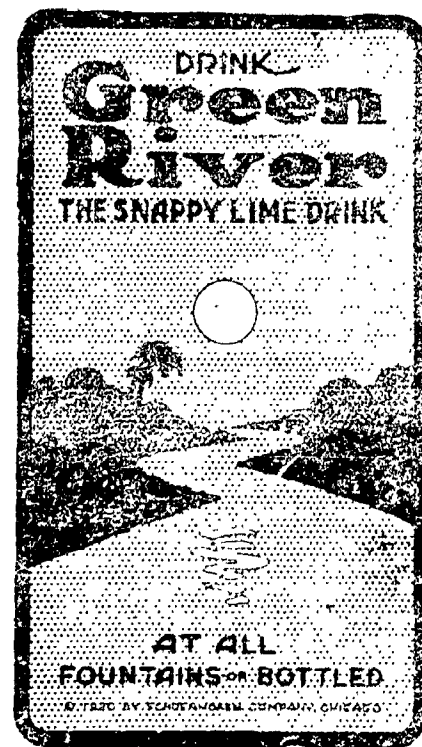

This is in direct opposition to the efforts of Premier Lloyd George to arrange a peace conference with the Soviet government.

While some of the allies leaders are striving to negotiate with Russia on the basis of recognition the United States declares:

"With the desire of the allied powers to bring about a peaceful solution of the existing difficulties in Europe, this government is of course, in hearty accord, and will support any justifiable step to that end. It is unable to perceive, however, that a recognition of the Soviet regime would promote, much less achieve this object, and it is, therefore, averse to any dealings with the Soviet regime beyond the most narrow boundaries to which a discussion of any armistice can be confined."

BIG CROP OF HAY FEVER JOKES

But Kentucky Man Says People Who Believe
to Hay Fever Colony Are Kidding
Themselves.

Wouldn't Be Any Hay Fever If
Simple Home Remedy Was
Given a Chance.

"Yes, there's a real NINETEEN per cent effective remedy for hay or fever," finally states a druggist in a prominent Kentucky city.

"But I don't expect anyone to believe me, because the treatment is so easy and the cost not worth mentioning."

"The annual crop of hay fever jokes would be mighty scarce if people would get three-quarters of an ounce of Mentholized Arcline, and by just adding water that has been boiled, make a pint of liquid that will prove a real help to all who suffer."

"Many of my Hay Fever friends tell me that by starting to gargle and snuff or spray the nostrils a few times a day the expected severe attack often fails to appear, and in cases where it does show up, is very mild and does not annoy."

"It's the same way with Rose Fever. The Better Class of Pharmacists who dispense Mentholized Arcline say that it will greatly modify any attack even when taken three or four days after hostilities begin."

Go to a real live druggist when you get ready to make a pint. For up to the present time there has been little demand for this remedy.

Mentholized Arcline is new in this market. It is possible that your druggist has not supplied himself, but he can get it for you from his jobber, who has a large supply.

DELAWARE, O., Aug. 11.—Former Governor Willis issued the following statement at his home here this morning:

"The pre-primary campaign was free from personality, national issues, rather than individual consideration, were discussed. This situation guarantees Republican support of whatever ticket the final returns show has been nominated."

"I shall continue to put forth every effort for the election of Harding and Coolidge and the entire Republican ticket, state and national."

"I take this opportunity of expressing my gratitude to those who have made my nomination possible."

Former Governor Willis leaves today for Kansas where he will take part in the opening of the Republican campaign in that state.

Unofficial returns from Franklin county give Willis a majority of about 2,200 over Wamamaker and give Davis 6,618, Cole 6,603, a majority of 15 votes for Davis over Cole; McCulloch 6,267.

COX STANDS PAT ON DECISION TO HELP SUFFRAGE CAUSE

DAYTON, Ohio, August 11.—A group of women who represent the anti-suffragist that, tried to sway Governor James M. Cox in an all-night conference but failed. Governor Cox told them that he was going to stand pat. He talked to the anti-suffrage group, smiled at them, and laughed with them and then said that he was going to do everything he could to get the Tennessee legislature to ratify. The women left in a good humor, because if a few that he had not done what he should have done, all were convinced that he is a good fellow.

Just before he started on a horseback ride at six o'clock this morning thru his estate, the governor said that he would stand firmly with the women who were endeavoring to get suffrage across in Tennessee and that he was convinced he would be successful. Then he jumped into the saddle and gave a spur to his big mount, "The Governor," a fine stallion. He chased a rabbit across the fields and seemed to take great joy in the fact that the little animal ran to cover before he could overtake it. He had a hard, two-hour ride before breakfast and said he was getting himself in physical trim for the campaign ahead of him, without thinking of political issues. The governor said he would leave here Wednesday night and there would be no let-up from that moment.

Governor Cox went yesterday morning to a little booth at Carramonte, near Trail's End. There he cast his vote in the primary fight. He supported W. A. Julian, of Cincinnati, candidate for the Democratic nomination for the United States senate. Cox also marked his ballot in support of Vic Donahy, the present auditor of the state of Ohio, who is running this year for governor.

Cox was accompanied to the polling place by several newspaper correspondents and moving picture men. After voting he went to his office, and answered much of the correspondence accumulated there. He will go to Columbus Wednesday night and motor from there to Camp Perry Thursday morning. He will spend Thursday night at Camp Perry and Friday night according to present plans he will start by automobile for Wheeling, W. Va., where he is scheduled to deliver two speeches Saturday.

BEATS GASOLINE AT 15 CENTS A GALLON

New Invention Makes Fords Run 34 Miles On Gallon of Gasoline. Other Cars Show Proportionate Savings

A new carburetor which cuts down the gasoline consumption of any motor, including the Ford, and reduces gasoline bills from one-third to one-half is the proud achievement of the Air Friction Carburetor Co., 325 Madison St., Dayton, Ohio. This remarkable invention not only increases the power of all motors from 30 to 50 per cent, but enables everyone to run slow on high gear. With it you can use the very cheapest grade of gasoline or half gasoline and half kerosene and still get more power and more mileage than you now get from the highest test gasoline. Many Ford owners say they now get as high as 45 or 50 miles to a gallon of gasoline. So sure are the manufacturers of the immense saving their new carburetor will make that they offer to send it on 30 days' trial to every car owner. As it can be put on or taken off in a few minutes by anyone all readers who want to try it should send their name, address and make of car to the manufacturers at once. They also want local agents to whom they offer exceptionally large profits. Write them today.—Adv.

FROM HAY FEVER TO HEALTH

Thursday Health Talk No. 23 By R. E. Lynch, D.C., Ph.C. Hay fever is a form of torture visited on the susceptible at this season of the year. About one out of every hundred must suffer. There is excessive heat in the nasal membranes, a thin watery discharge from the nose, different breathing and frequent sneezing.

When the nasal passages have sufficient nervous vigor and tone to throw off the pollen infection of the August season, the disease cannot get hold. Nervous vigor in the nasal passages depends on a free flow of spinal nerve energy, and hay fever victims are invariably found suffering with spinal disorder causing pressure on spinal nerves controlling the healthful action of the nasal passages. Adjusting the spine to relieve this pressure restores the conditions of health. So far as is known spinal adjusting is the only effective means of correcting this disease. Thousands of sufferers have found spinal adjusting to be its master.

From Hay Fever to Health After Fifteen Years

"After being afflicted with hay fever for fifteen years (each year growing worse) I turned to chiropractic. Adjusting brought immediate relief. It also brought relief from other troubles.

Whereas I was run down, now I am up to normal weight and I feel as if I could not praise chiropractic too highly." Mrs. Lige Hays, Chiropractic Research Bureau, Statement No. 1225H.

Ends Search for BodyCHAMPAIGN, Ill.—Raymond Geske,
youth, was drowned six weeks ago.
Search for the body proved futile.Finally the mother of the boy asked
the Champaign Board of Supervisors
to engage a Decatur clairvoyant in the
hunt. They did. The clairvoyant
said the body had drifted under two
bridges and that the head was fast in
a barrel. The body was found within
two feet of where the medium designa-
ted and the head was fast in a tub.The Champaign Board of Supervisors
has voted \$50 to the clairvoyant for
her services.Stern Critic of Education.
The teacher had sent numerous
notes in vain endeavor to get Johnny
bathed and cleaned up. There was
no reply and no visible improvement
in the boy's appearance, until at last
the mother, driven to desperation,
sent the teacher a long letter saying,
among other things: "What is it to
the teachers whether the children in
their schools have a bath once a day,
or once a week, or once a month, or
once a year? They are washing the
map all out of the children, and that
is how so much tuberculosis gets
started."

FRANCE SPLITS

(Continued From Page One)

across the first page of the Paris
Midi.

The Socialist newspaper, Humanite,
calls the new French policy provoca-
tive.

LONDON, Aug. 12.—War clouds
again loomed ominously on the hori-
zon today. A cabinet council was
summoned to consider the decision of
France to sever all relations with the
Soviet government of Russia and to
throw French support to the de facto
government established by General
Wrangel, the anti-Bolshevik leader,
in southern Russia.

A wave of alarm has swept Great
Britain as a result of the unexpected
decision of France in breaking away
from Premier Lloyd George's policy of
conciliation.

The British cabinet council, which is

vigorously opposing any and all war
measures against Soviet Russia, was
hastily called into secret session to
consider action in view of the new
French attitude.

Premier Lloyd George, who has
been making tremendous efforts to re-
store peace in the east and prevent a
new war from sweeping Europe, was
plainly anxious. It was announced at
the premier's official residence at No.
10 Downing street, just before noon that
no French note relative to France's
new Russian policy had yet been re-
ceived from Paris.

The lineup of the powers is describ-
ed as follows:

Great Britain demands a free and
independent Poland, but is willing to
make concessions to the Soviet gov-
ernment at Moscow.

France—Hostile to the Soviet gov-
ernment and will support the de facto
government of General Wrangel by
force of arms.

Italy—Opposed to war or blockade
against Russia.

U. S.—Stays. Demands a free and
independent Poland and is hostile to
the government of the Soviet government.

Japan—Attitude unknown, but has
recently effected an armistice with the
Russian Bolsheviks in Siberia.

Germany—Future German attitude
to be dictated by circumstances.

Romania—Reported to be ready to
go to war against Soviet Russia.

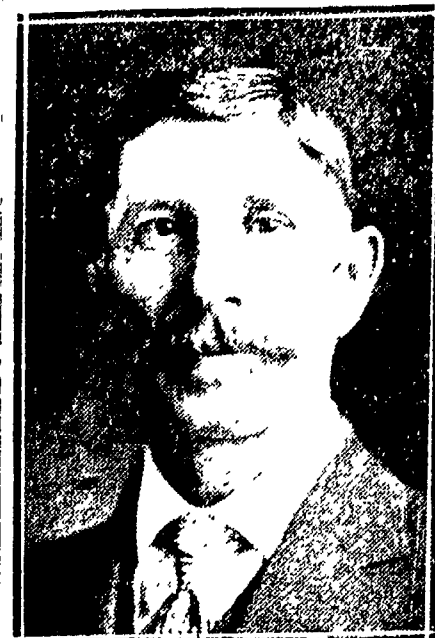

Czechoslovakia—Is maintaining an
attitude of neutrality but is believed
to be averse to giving military assist-
ance to Poland.

Hungary—Has already offered to go
to war against Soviet Russia.

POLITICIANS TO GET THEIR HEADS TOGETHER EARLY

COLUMBUS, O., Aug. 12.—Calls are
expected to be issued in a few days
for meetings here of the new Demo-
cratic and Republican state central
committees. The law requires that
these meetings be held within 15 days
after the election of the committee
men, which took place at Tuesday's
primaries.

Predictions were made here that W.

W. Durbin, Kinton, and George H.

Clark, Canton, will be retained as

chairmen, respectively, of the Demo-
cratic state central and the Republi-
can state advisory committee.

TRAIN BANDIT IS CAPTURED TODAY

WINNIPEG, Man., Aug. 12.—John
Basoff, the Winnipeg train bandit for
whom 100,000 dollars in Northwest Mount-
ed police have been searching for a
week, was captured early today near
Pincher Creek, Alberta. (Enraptured
and hungry train bandit, the bandit
made no resistance when the red coat-
ed troopers located him in an aban-
doned shack.)

Two of Basoff's companions, who
participated in the holding of a Cana-
dian Pacific train ten days ago, were
shot dead earlier in the week by the
troopers.

Basoff was captured with the aid of a

Canadian Pacific engineer. The en-
gineer noticed the man in the brilliant
light from the engine's headlight. At
the next town he notified the police,
and they trailed him to his lonely re-
treat.

TAGGING ALL BASES

Elmer Smith's bust over the fence
with three guys on, gave Cleveland
nothing but a thrill. Carl Vass shut
down on runs after that and the
Yankees won 7 to 1 in ten innings.

Vernon Spencer headed a bit when
he whacked a triple with the bases
loaded, giving the Giants their second
victory of the day over the Pirates, 6
to 3. They won the first 4 to 1.

The Cardinals are happy in Philadel-
phia. They won their third straight
from the dilapidated Phillies, 18 to 9.

Jeff Pfeffer returned to active pas-
time, and laid out the Cub for the
Dodgers in the first game 9 to 1. Car-
penter and M. Marx were used to the
task in the second, to lay 1 to 0.

Sethor's widows were deeply re-
sponsible for his defeat by the Red
Sox in St. Louis 5 to 3.

Imagine it, the Athletics score 10
runs in one frame against the Pirates,
eventually winning, 13 to 1.

The Senators continued their act
against the White Sox losing again
by one run, 2 to 1.

Industrial League

POTTERY WINS

The Pottery still leads the Industrial
League. The leaders beat the Hunt-
Crawford-Beach team at the Industrial
league diamond by the score of 6 to 4
Wednesday evening. The game was
well played and both teams worked
consistently. The game was a pitcher's
duel and there was not much hit-
ting done on either side.

Laird and Callahan formed the Pot-
tery battery while Hall and Born
formed the opposing battery.

The game between Crows and Tyndal

Keeping Fit.

Man in this world is like a traveler
who is always walking toward a colder
region, and who is, therefore, obliged
to be more active as he goes farther
north. The great malady of the soul
is cold, and in order to counteract this
formidable illness he must keep up the
activity of his mind not only by work
but by contact with his fellow men and
with the world.—De Toqueville.
